"	37	Jan. 22, 63	May 6, 82	Discharges.	

EXPLANATORY NOTES.

BOOKS, FILES, PAPERS and REPORTS indexed under each Hospital are arranged by *States* and *Classes*, and their File Numbers, Pages, specific Dates and Contents are given.

CLASS.—All records are entered in this column, as “Reg.” (Register), “Pres.” (Prescription), “Case,” “O. & L.” (Orders and Letters), “Cloth.” (Clothing), “Miscel.” (Miscellaneous), “R. & R.” (Requisitions and Returns), “Papers,” “M. Rolls” (Muster and Pay Rolls), “S. Div. Q. R.” (Surgical Division Quarterly Reports), “B. MSS.” (Bound Manuscripts), &c.

NUMBER.—In this column the File Numbers of the Books and Papers are given.

PAGE.—This, by numeral, tag, or other term, denotes the page of the book where the dates given in the “From” column commence.

FROM—(First date column).—In this column is entered (in the case of Hospital Registers) the earliest date of admission of Patients, except when qualified by an asterisk (*)—[*See Note.*] In the case of other records, the earliest date of the specific “Contents” is given.

(*Note.*—The star (*) in this column denotes that the Register commences with a list of Patients remaining in the Hospital at the date given.)

TO—(Second date column).—In this column is entered (in the case of Hospital Registers) the latest date of admission of Patients. In the case of other records is entered the latest date of the specific “Contents.”

(*Note.*—It will be noticed that the character “&” sometimes occurs in the column of dates, as “Feb. —, ’62, & May —, ’62” In these cases the records are not continuous between those dates, being only for the respective periods given.

CONTENTS.—The entries in the first column under this heading are descriptive and relative to the symbolical entries in the second column, which latter are as follows:

S. & W.—(Sick and Wounded).—Registers so classed show name, rank, company and regiment, date of admission, diagnosis and disposition.

(*Note.*—A new and enlarged form of Register of Sick and Wounded, together with a Register of Surgical Operations, of similar size, was issued in February, 1864, which is more comprehensive than the earlier Registers—giving eight additional columns for correspondingly fuller statements respecting Patients. They are distinguished on the Index by a cross—viz: “S. & W. X.”)

S. & W. and PRES.—(Sick & Wounded and Prescription).—These Registers are posted daily, and give name, rank, company and regiment, date of admission, disease, prescription and disposition. The disease of the Patient is given at the time of admission only. These Registers are mostly of small size, used in field service.

PRES.—(Prescription).—These books give name of Patient, diagnosis, daily prescription and disposition. Where the diagnosis is omitted, this fact is stated on the Index in the column of “Remarks.”

WOUNDED.—These entries embrace Surgical Cases, and lists of wounded men *only*.

CASUALTIES.—This term is used in reference to lists of men killed or wounded in action, and in most cases these lists show the character of wounds.

CASES.—These books give extended histories of medical or surgical cases, methods of treatment and general results.

CHANGES.—This term denotes that the entries in the records show admissions, dispositions, furloughs, deaths, discharges, returns to duty and transfers. The disease for which the Patient is admitted will not be found on these records, unless indicated by "Diagnosis" in "Remarks" column.

O. & L.—(Orders and Letters.)—These books contain originals or copies of Orders, Letters and Endorsements.

CLOTH.—(Clothing.)—These are records of clothing issued, the baggage and other property of Patients, and inventories of the effects of deceased men. (Arms and equipments are sometimes noted.)

DES. LISTS.—(Descriptive Lists.)—In these books are noted, usually, the dates of receipt and disposition of the soldier's Descriptive List.

MISCEL.—(Miscellaneous.) [In "Class" column.]—Under this heading are filed books which are numerical or admit of no other classification.

NUML. REPTS.—(Numerical Reports.)—These, in either daily, weekly or monthly order, give, *by numbers*, general data of Patients.

(*Note.*—Other records, designated in the second ["Contents"] column of the Index, have their varied characterizations, but the terms which are used are deemed sufficiently suggestive.)

PAPERS.—(In "Class" column.)—Under this designation are grouped Bed-Cards, Changes, Lists of Patients in Hospitals, Burials, Furloughs, Certificates of Inability to Travel (at Expiration of Furlough), Orders and Letters, Muster Rolls, Numerical Reports and Miscellaneous Manuscripts.

MONTHLY REPORTS.—These Reports are not taken up on this Index. They embrace statistical reports from all Regimental and other Hospitals. They also show date and cause of death or discharge, by name (which are entered on the State-alphabetical Death and Discharge Records of this office). They show date and cause of transfer to the Veteran Reserve Corps subsequent to January, 1864. In some instances memoranda of the treatment of Patients, giving names, appear on these Reports; in such cases that fact is noted on this Index.

(*Note.*—The statement "*No Records on File*" does not apply to the Monthly Reports—they being considered records of *this office*, as contradistinguished from records of discontinued Hospitals *on file* in this office.)

REMARKS.—In this column are additional statements explanatory of the entry.

UNDERScores.—A dash line under a file entry (18) denotes that the book is arranged in alphabetical, regimental, or State order, or that it is indexed in itself. When two numbers relating to the same entry are separated by a dash (18
19) the lower is an index to the upper.

Italic entries indicate records which are not a part of the records of the Hospital under which they occur, but which bear an incidental relation to that Hospital.
